GTA REALTORS® Release May Stats

TORONTO, ONTARIO, June 2, 2023 - The Greater Toronto Area (GTA) housing market continued to improve from a sales perspective in May 2023. Unfortunately, the supply of homes for sale did not keep up with the demand for ownership housing. Sales as a share of new listings were up dramatically compared to a year ago. This is a clear signal that competition between buyers increased substantially compared to last

"Despite the fact that we have seen positive policy direction over the last couple of years, governments have been failing on the housing supply front for some time. Recent polling from Ipsos found that City of Toronto residents gave Council a failing grade on housing affordability and pointed to lack of supply as the major issue. This issue is not unique to Toronto. It persists throughout the Greater Golden Horseshoe. If we don't quickly see housing supply catch up to population growth, the economic development of our region will be hampered as people and businesses look elsewhere to live and invest," said Toronto Regional Real Estate Board (TRREB) President Paul Baron.

GTA REALTORS® reported 9,012 sales through TRREB's MLS® System in May 2023 - a 24.7 per cent increase compared to May 2022. Conversely, new listings were down by 18.7 per cent over the same period. On a month-over-month seasonally adjusted basis, sales were up by 5.2 per cent compared to April 2023.

"The demand for ownership housing has picked up markedly in recent months. Many homebuyers have recalibrated their housing needs in the face of higher borrowing costs and are moving back into the market. In addition, strong rent growth and record population growth on the back of immigration has also supported increased home sales. The supply of listings hasn't kept up with sales, so we have seen upward pressure on selling prices during the spring," said TRREB Chief Market Analyst Jason Mercer.

The MLS® Home Price Index (HPI) composite benchmark was down by 6.9 per cent year-over-year in May 2023, but up by 3.2 per cent on a seasonally adjusted monthly basis compared to April 2023. The average selling price, at \$1,196,101, represented a small 1.2 per cent decline relative to May 2022. On a seasonally adjusted monthly basis, the average selling price was up by 3.5 per cent compared to April 2023.

year, resulting in the average selling price reaching almost \$1.2 million last month.

Notes

- 1. Sales, dollar volume, average sale prices and median sale prices are based on firm transactions entered into the TRREB MLS® System between the first and last day of the month/period being reported.
- 2. New listings entered into the TRREB MLS® System between the first and last day of the month/period being reported.
- 3. Active listings at the end of the last day of the month/period being reported.
- 4. Ratio of the average selling price to the average listing price for firm transactions entered into the TRREB MLS® System between the first and last day of the month/period being reported.
- 5. Average Listing Days on Market (Avg. LDOM) refers to the average number of days sold listings were on the market. Average Property Days on Market (Avg. PDOM) refers to the average number of days a property was on the market before selling, irrespective of whether the property was listed more than once by the same combination of seller and brokerage during the original listing contract period.
- 6. Active Listings at the end of the last day of the month/period being reported.
- 7. Past monthly and year-to-date figures are revised on a monthly basis.
- 8. SNLR = Sales-to-New-Listings Ratio. Calculated using a 12 month moving average (sales/new listings).
- 9. Mos. Inv. = Months of Inventory. Calculated using a 12 month moving average (active listings/sales).
- 10. "Bradford West Gwillimbury" is referred to as "Bradford" and "Whitchurch-Stouffville" is referred to as "Stouffville" in the report.
